

2024 Drug and Alcohol Abuse Prevention Program (DAAPP) Notice – for Students

Prevention of Alcohol Abuse & Illicit Drug Use at Texas A&M University

1. Standards of Conduct

University Drug Policies

All members of the University community are expected to abide by state and federal laws pertaining to controlled substances and illegal drugs. "Controlled substances" refers to those drugs and substances whose possession, sale, or delivery results in criminal sanctions under the Texas Controlled Substances Act, as well as substances which possess a chemical structure similar to that of a controlled substance (e.g., "designer drugs").

In addition to legal considerations, Texas A&M University Student Rule 24.4.12, *Drugs* prohibits "the act of using, possessing, being under the influence of, manufacturing, or distributing illegal drugs or illegally obtained/possessed controlled substances."

University Alcohol Policies

Individuals must be at least 21 years old to purchase alcoholic beverages. Possession and consumption of alcoholic beverages is restricted. Texas A&M University Student Rule 24.4.13, *Alcohol* states that "alcohol use, possession, manufacturing, or distribution of alcoholic beverages (except as expressly authorized by University regulations), is prohibited on Texas A&M University premises and University sponsored events." University sponsored events include institution-sponsored on or off campus activities, such as officially sanctioned field trips, activities of a student organization recognized by the institution (such as fraternities or sororities), and institutional-sponsored activities abroad. Student organizations that sponsor activities where alcohol is served, must have the approval of their (faculty/staff) advisor and abide by established University rules.

Students, ages 21 or older, who choose to consume alcoholic beverages in residence hall rooms are expected to do so in moderation to ensure residents' rights to privacy, sleep, and study. The following behaviors are reasons for appropriate student conduct or remedial action by the University: loud or disruptive behavior, interference with the cleanliness of the residence halls, or drinking habits that are injurious to the health or education of an individual or those around them.

2. Legal Sanctions

A student who violates any of these alcohol or drug laws may be reported to the appropriate law enforcement agency and will be subject to prosecution in accordance with the law. Legal sanctions for violation of local, state and federal laws may include, but not limited to: fines, probation, jail or prison sentences.

3. Health Risks Associated with the Use of Illicit Drugs and the Abuse of Alcohol

Alcohol abuse is a prime contributor to suicide, homicide, motor vehicle deaths, and other unintended deaths.

Excessive alcohol consumption leads to more than 100,000 deaths annually in the United States. Alcohol abuse can lead to alcohol dependence, premature death through overdose, alcohol-related stroke, and complications involving the brain, heart, liver, and many other body organs. Alcohol abuse also causes liver disease, gastritis, and anemia, as well as cancers of the esophagus and larynx.

The abuse of illicit drugs can result in a wide range of health problems. In general, illicit drug use can result in drug addiction, death by overdose, death from withdrawals, seizure, heart problems, infections (e.g., HIV/AIDS, hepatitis), liver disease, and chronic brain dysfunction.

Alcohol used in any amount by a pregnant woman can cause birth defects and permanent brain damage to the child. Drug use by a pregnant woman may cause addiction or health complications in her unborn child.

Alcohol abuse interferes with psychological functions, causes interpersonal difficulties, and is involved in most cases of child abuse. Substance abuse disrupts work, reduces motivation, causes legal and financial problems, and social and family problems. Other problems associated with alcohol and drug use include the following psychological dysfunctions: dependency, memory loss, hallucinations, paranoia, and psychosis.

Veterinary Education, Research, and Outreach Program (VERO) resources include:

Students have access to the following West Texas A&M University (WTAMU) services for On-Campus Counseling and Health Services related to Alcohol and Other Drugs.

WTAMU campus employs counselors and mental health professionals to provide confidential short-term assistance for current students experiencing personal concerns, career decisions, and issues which may be interfering with academic success including anxiety, depression, and substance abuse. For our military veterans, we also have a group of dedicated counselors to help provide guidance. Referral to community resources is often part of the counseling process if assistance is needed after WTAMU counseling sessions.

TELUS is a 24/7 resource for students seeking mental health support. Students are able to access providers through chat, phone calls, video chat, and in-person services, seek support from peers, and access a library of resources catered to the mental health needs of students. All resources provided by students are free of charge! Simply download the app and select West Texas A&M University as your school to get started. Web access to the TELUS platform can be found by visiting <https://studentsupport.telushealth.com>.

In addition to these WTAMU resources, VERO students also have access to Vetmed counselors that work in the veterinary school under CAPS. These counselors teach in the Professional skills courses and become familiar to all of the veterinary students. They do have the option to reach out to them at vetcounselor@caps.tamu.edu or by calling 979.845.2700. We also provide our students with the helpline# 979.845.2700. More information is available at vetmed.tamu.edu/counseling or www.caps.tamu.edu.

5. Student Conduct Sanctions

A student found responsible for noncompliance with the Texas A&M University Student Rules or laws regarding alcohol and/or other drugs is subject to sanctions commensurate with the offenses.

Student conduct action in cases involving drug related violations by students may result in suspension or expulsion from the University and/or referral for prosecution.

Violation of any state or federal law pertaining to controlled substances that occur off campus and are not associated with a University connected activity may result in student conduct charges in situations in which the continued presence of the individual on campus is likely to interfere with the educational process and/or the orderly operation of the University.

University conduct proceedings will occur in accordance with the procedures outlined in the University Student Rules. Any conduct action imposed by the University may precede, and be in addition to, any penalty imposed by authorities off campus.

Other Impacts of Drug and Alcohol Violations

Effective with the 2021-2022 award year, having a drug conviction while receiving federal (Title IV) financial aid will no longer impact a student's federal financial aid eligibility. However, students who are receiving funds from certain state aid programs, such as the Toward EXcellence, Access, and Success (TEXAS) Grant, must certify annually, prior to the disbursement of funds, that they have not been convicted of a felony or crime involving a controlled substance.
