

2024 Drug and Alcohol Abuse Prevention Program (DAAPP) Notice – for Students

Prevention of Alcohol Abuse & Illicit Drug Use at Texas A&M University - Qatar

1. Standards of Conduct (Main and Qatar Campuses)

University Drug Policies

All members of the University community are expected to abide by state and federal laws pertaining to controlled substances and illegal drugs. More specifically, Texas A&M University Student Rule 24.4.12, *Drugs* prohibit "the act of using, possessing, being under the influence of, manufacturing, or distributing illegal drugs or illegally obtained/possessed controlled substances."

"Controlled substances" refers to those drugs and substances whose possession, sale, or delivery results in criminal sanctions under the Texas Controlled Substances Act, as well as substances which possess a chemical structure similar to that of a controlled substance (e.g., "designer drugs").

University Alcohol Policies

Individuals must be at least 21 years old to purchase alcoholic beverages. Possession and consumption of alcoholic beverages is restricted. Texas A&M University Student Rule 24.4.13, *Alcohol* states that "alcohol use, possession, manufacturing, or distribution of alcoholic beverages (except as expressly authorized by University regulations), is prohibited on Texas A&M University premises and University sponsored events." University sponsored events include institution-sponsored on or off campus activities, such as officially sanctioned field trips, student sponsored social activities, activities of a student organization recognized by the institution (such as fraternities or sororities), and institutional-sponsored activities abroad. Student organizations, which sponsor activities where alcohol is served, must have the approval of their (faculty/staff) advisor and abide by established University procedures.

Students, ages 21 or older, who choose to consume alcoholic beverages in residence hall rooms are expected to do so in moderation to ensure residents' rights to privacy, sleep, and study. The following behaviors are reasons for appropriate disciplinary or remedial action by the University: loud or disruptive behavior, interference with the cleanliness of the residence halls, or drinking habits which are injurious to the health or education of an individual or those around him/her.

Qatar Campus Only: Alcoholic beverages are not allowed in Qatar Foundation residence halls or any other Qatar Foundation facility and subject to disciplinary action by Qatar Foundation, the State of Qatar, and/or Texas A&M University at Qatar.

4. Health Risks Associated with the Use of Illicit Drugs and the Abuse of Alcohol (Main and Qatar Campuses)

Alcohol abuse is a prime contributor to suicide, homicide, motor vehicle deaths, and other unintended deaths. Excessive alcohol consumption leads to more than 100,000 deaths annually in the United States. Alcohol abuse can lead to alcohol dependence, premature death through overdose, alcohol-related stroke, and complications involving the brain, heart, liver, and many other body organs. Alcohol abuse also causes liver disease, gastritis, and anemia, as well as cancers of the esophagus and larynx.

The abuse of illicit drugs can result in a wide range of health problems. In general, illicit drug use can result in drug addiction, death by overdose, death from withdrawals, seizure, heart problems, infections (e.g., HIV/AIDS, hepatitis), liver disease, and chronic brain dysfunction.

Alcohol used in any amount by a pregnant woman can cause birth defects and permanent brain damage to the child. Drug use by a pregnant woman may cause addiction or health complications in her unborn child.

Alcohol abuse interferes with psychological functions, causes interpersonal difficulties, and is involved in most cases of child abuse. Substance abuse disrupts work, reduces motivation, causes legal and financial problems, and social and family problems. Other problems associated with alcohol and drug use include the following psychological dysfunctions: dependency, memory loss, hallucinations, paranoia, and psychosis.

Disciplinary action in cases involving drug related violations by students may result in suspension or expulsion from the University and/or referral for prosecution.

Violation of any state or federal law pertaining to controlled substances which occur off campus and are not associated with a University connected activity may result in disciplinary charges in situations in which the continued presence of the individual on campus is likely to interfere with the educational process and/or the orderly operation of the University.

University disciplinary proceedings will occur in accordance with the procedures outlined in the University Student Rules. Any disciplinary action imposed by the University may precede, and be in addition to, any penalty imposed by authorities off campus.

For a list of all Texas A&M University student rules visit <https://student-rules.tamu.edu/rule24/>.

Other Impacts of Drug and Alcohol Violations (Main Campus)
